Wireless Microphone Trade-In Offer

From 1 January 2015 wireless microphone systems operating on frequencies between 694 – 820MHz will be illegal to use. These frequencies will be re-assigned and wireless audio systems in this frequency band must cease operation.

For a limited time, participating TOA dealers throughout Australia are offering a factory assisted trade-in of up to:

30% off TOA wireless microphone systems*

* Conditions apply, see dealers for details.
