PRO1452KB
IR EXTENDER OVER HDMI 2.0 KIT
WITH 2 EYE EMITTER 18GBPS

MODEL:	PRO1452KB
CODE:	37168824

FOXTEL iQ2/iQ4 COMPATIBLE — **IR SIGNAL**

4K ULTRAHD

Use an existing HDMI cable to carry the IR signal from one room to another without the need for an IR extender, repeater or more cabling. This kit also uses HDMI version 2.0, which supports 18Gbps, meaning you wont have to downgrade your existing setup.

Consisting of two short HDMI adaptor leads, each end has a 3.5mm jack into which you plug the IR receiver or transmitter. The IR repeater goes to the source device while the IR transmitter goes to your TV or display device.

- ↗ Compatible with Foxtel IQ boxes
- ↗ Easy to use, won't interfere with HDMI CEC like some of the others on the market
- ↗ Control up to 4 devices via IR using the existing HDMI cable (optional 4 eye IR emitter required)
- ↗ Non-directional, each side can plug in the IR receiver or emitter
- ↗ HDMI 2.0 version, 18Gbps speed, backward compatible
- ↗ Dual-band IR
- ↗ IR Receive distance: 10m

SPECIFICATIONS

|	
HDMI Version	2.0
Cable Length (Emitter/Transmitter/USB)	3m/1.5m/10cm
Transmit/Receiver Frequency Range	20kHz to 60kHz
Range	10m @ 38kHz / 10m @ 56kHz
