RF11IQ – How to use the App

Connecting to the unit

- 1. In the Server Address Bar input the address of the RF11IQ and press Done.
- 2. You will then get the login screen, input username and password (Factory Setting out of the box is **username: admin** and password: **THORRF11**).
- 3. Press Login and if successful you will see "Connected" in the top right-hand corner of the app and all of the Port Buttons will populate the screen with feedback on current draw etc. You are now connected and have control of the ports on your RF11IQ.

Adding Multiple RF11IQ

- 1. Press the menu button in the top right corner of the screen (Three dots).
- 2. Press the New IQ Device button that pops up down the bottom of the screen.
- 3. Input the name you wish to call the device ie. Office and the address for the RF11IQ. Press Update.
- 4. You will be taken to the device listing screen, press the + sign and repeat step 3 for each RF11IQ Unit.
