

# Unified Communications Microphone & Speaker System YVC1000

## STRESS-FREE, REMOTE COMMUNICATION.

The YVC1000 features separate microphone and speaker units that smoothly integrate audio and video for natural, comfortable remote communication.

The high performance, full range speaker unit can be placed close to the display so that audio and video from the remote location blend naturally, while adaptive echo canceller and other Yamaha sound processing technologies facilitate stress-free conversation.

## FEATURES:

- Remote microphone with speaker control unit allows for greater range
- Expandable with control unit able to support up to 5 remote mics
- Maximum 95dB loud volume
- Allows for simultaneous connections: USB, Bluetooth, & Audio Input/Output
- 12V Power Supply
- Windows and Mac compatible
- Yamaha's optimisation technology: adaptive echo canceller, noise reduction, automatic tracking, automatic gain control, automatic room eq, dereverberation, and automatic audio tuning
